## Sense SK

## Combi Compact

## Sense MPE

Sense SK provides you with quick and safe heat, just like the other heaters in the sense series. Combining sleek design with the reliable functionality and genuine quality of Tylö.

Sense SK is designed to be installed with a separate electronic control panel.

Steam saunas are a variation on the traditional sauna concept that we can warmly recommend. The difference is that you enjoy a steam sauna at a lower temperature, but with much higher humidity (up to 70%). In practice, this means a more gentle, more relaxing bathing sensation – a "soft sauna". It's the perfect choice for all types of sauna bathing – dry, wet, or in clouds of soothing steam.

Over the years Tylö has pioneered numerous innovations to improve and develop the function, safety and enjoyment of sauna bathing.

Sport/Compact heater for small sauna rooms. Stone compartment for use with Mini sauna stones. Control panel with thermostat and mechanical timer integrated into the base of the heater. Max. 3 hours running time. 0–9 hour preset.
